### EXAMINER'S COMMENT

Applicant is correct that the Examiner agreed to examine the S3.2 protoxin of claim 9, but that the claim was listed as withdrawn from consideration. The S3.2 protoxin of claim 9 was indeed examined in the last Action and determined to be free of the prior art. A bookkeeping error led to the inadvertent listing of the claim as withdrawn.

The following is an examiner's statement of reasons for allowance: Upon reconsideration of the specificity of  $\mu$ -conotoxins and in light of the amendments which specify that S3.2 is specific for neuronal sodium channels, the specification is deemed to have adequate description and be sufficiently enabling for the claimed treatment methods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
